ABOUT

I'm a UX/Product Designer with experience designing Voice AI and WhatsApp automation platforms, skilled in UX research, interaction design, prototyping and design systems. I enjoy observing how people think, behave and make decisions, and translating those insights into simpler digital experiences.

KEY SKILLS

- UX Research
- UI/UX Design
- Interaction Design
- AI Product Design
- Wireframing
- Prototyping
- Motion Design
- Digital Branding

SOFT SKILLS

Observation
Active Listening
Empathy
openness to feedback
analytical thinking

WORK EXPERIENCE

AI Calling Agent Platform | Intern at Tierce India Pvt Ltd

Jun – Jul 2026

- Redesigned 50+ screens, simplifying agent setup and management.
- Improved dashboards for clearer agent performance monitoring.
- Designed guided setup, voice previews and pre-launch testing.
- Simplified call tracking with clearer filters and records.

WhatsApp Automation | Intern at Tierce India Pvt Ltd

May – Jun 2026

- Redesigned 30+ screens for clearer navigation and workflows.
- Simplified wallets with visible credits and recharge controls.
- Improved campaign cards for scanning metrics and statuses.
- Built 60+ reusable components for a consistent design system.

Self-Initiated Design Work

Elderly Polymedicine Management Platform

Aug – Oct 2026

- Identified medication challenges through 17 interviews and 102 survey responses.
- Designed grouped, routine-based reminders to reduce cognitive load and simplify tracking.
- Improved medicine recognition and reminder clarity through usability testing.

SBI YONO

Jan – Feb 2026

- Identified banking friction through usability testing across diverse user groups.
- Made frequent banking tasks easier to find using personalized tags and shortcuts.
- Achieved 100% task completion and 4.4–4.7/5 satisfaction across tested redesigned flows.
