> ***"One question follows me everywhere I go, why do people do what they do?"***
> *I have always been a wonderer, about people, nature, places, birds, life, emotions, but this is the question I keep coming back to. I like to think about emotions, habits, and psychological triggers that shape choices. My focus lies at the intersection of Behavioral Science and Product Design.*

WORK EXPERIENCE

Tierce India Pvt Ltd |**Design Intern** May 2026 – July 2026

Simplified Voice AI and WhatsApp automation workflows by improving usability, clarity, and user trust. Designed 3 landing pages highlighting business pain points and communicating the product's value.

Freelance Designer | **Self-Employed** Ongoing

Worked on branding project, including logo design, visual identity, and packaging design, based on client requirements.

KEY PROJECTS

OrbiCare — Elderly Medication & Care App

Designed recognisable, grouped medication reminders and simplified medicine management to reduce cognitive load for elderly users.

SBI YONO — Mobile Banking Redesign

Improved banking task discoverability and quick access, while testing visual money cues to build elderly users' confidence in transfers.

Vaaniq AI — Voice AI & Automation Suite

Simplified Voice AI and WhatsApp automation workflows by improving navigation, campaign setup, and user trust through clearer feedback and confirmation steps.
